About Me

- Motivated and detail-oriented aspiring Data Analyst currently pursuing BCA and a professional data analytics course at Tops Technologies. Skilled in Excel, SQL, Power BI, and Python, with hands-on project experience. Eager to bring a fresh perspective, strong attention to detail, and fast learning ability to your team. As a fresher, committed to contributing with up-to-date skills, adaptability, and enthusiasm for growth—ready to make an impact and continuously learn with your company.

Projects

- **HR Dashboard using Excel**
- Created a dynamic HR dashboard to track key employee metrics such as headcount, attrition rate, department-wise distribution, and gender ratio.
- Used Pivot Tables, Charts, Slicers, and Conditional Formatting

Improved HR reporting efficiency by simplifying data visualization
Filter-enabled dashboard for department, location, and job role analysis.
